

DentaCAD Corporation

We are pleased to announce the DentaCAD/AutoCAD training schedule for 2009. This year, all classes will be held just outside Charlotte, NC (20 minutes from the airport). Because of the high level of hands-on training, each class will be limited to five students.

The class is open to both dealers and manufacturers, and is ideal for dental professionals who are involved with office planning and/or equipment sales. There are no prerequisites for the class. We will take you from ground zero to a solid level of proficiency in this three-day period.

The registration form and fee schedule is attached.

To learn more about these classes contact Bill Hardin, (704) 822-5960, bhardin@dentacad.com. We will be happy to schedule a training class in your own facility and at your convenience.

Maximize your selling power! Learn how to use **DentaCAD, the ultimate selling tool**, in conjunction with **AutoCAD, the standard in dental office planning**. Enroll now.
